

## ECHINACEA

Natural resistance from the fresh purple coneflower

The purple coneflower which is organically cultivated in Southern Germany is annually harvested during the European late summer. The aerial parts of the blooming *Echinacea purpurea* are processed into a high-quality medicinal plant juice by a gentle pressing method. This juice is produced by one of our long-term cooperation partners. It forms the basis of our Freshplant Pressjuice Powders which are entirely made in Germany. These unique products are manufactured by the very gentle process of vacuum belt-drying.

Due to the special pressing process all ingredients of the fresh purple coneflower remain also in our powders in their natural composition. The entire ingredients spectrum is meant to be responsible for the support of the body's own defences.

**ECHINACEA FRESHPLANT  
PRESSJUICE POWDER, organic**

## CHARACTERISTICS

From a variety of herbal raw materials we are able to offer our customers a number of well-chosen Freshplant Pressjuice Powders. In the following we would like to give you a first impression about the speciality of our Freshplant Pressjuice Powders in general:

- controlled organic cultivation by long-term contract farmers
- constant control of our fields
- immediate processing of the fresh plant after harvest
- use of a special pressing method
- preservation of all soluble substances contained in the plant
- preservation of the synergistic composition of ingredients of the fresh plant
- preservation of the original taste of the cultivated plant
- eminently gentle vacuum belt-drying
- neither storage / drying of the raw material nor use of solvents

The production is still carried out according to the principle of Walther Schoenenberger: **“Leave the natural as natural as possible!”**

## OUR QUALITIES

With the focus on a unique quality the following vacuum belt-dried qualities established exceptionally in our standard range over the years:

- **Echinacea Freshplant Pressjuice Powder**  
EU organic quality ..... Art.-no.: E-013 BIO  
GMP-API ..... Art.-no.: E-013 BIO-W
- **Echinacea Freshplant Pressjuice Powder, native**  
EU organic quality ..... Art.-no.: E-025 BIO  
GMP-API ..... Art.-no.: E-025 BIO-W
- **Echinacea Freshplant Pressjuice Powder, fine**  
EU organic quality ..... Art.-no.: E-005 BIO  
GMP-API ..... Art.-no.: E-005 BIO-W

Our alternative Pressjuice quality stabilized with Ethanol:

- **Echinacea Freshplant Pressjuice**  
EU organic quality ..... Art.-no.: E-019  
GMP-API ..... Art.-no.: E-019-W

## OUR SERVICE

The consistent and high quality of our products and the satisfaction of our customers are the focus of our daily business. Thus, the concept of service begins with specific provision of requested documents. In the case of Echinacea Freshplant Pressjuice Powders, we gladly present the following documents on request:

### Analysis

- batch-related Certificate of Analysis
- Nutritional Analysis
- Mineral Substance (Cation) Analysis
