Company Profile

PANINKRET Chem.-Pharm. Vertriebsges. mbH is a nationally and internationally active company that has been distributing animal and plant extracts in bulk from its reliable long-term production partners since 1982. The production of the animal extracts/hydrolysates is carried out in the facility of Paninkret Chem.-Pharm. Werk GmbH in Westerhorn. The equivalent is phyto-extracts, fruit powders and freshplant press juice powders, which are produced under GMP conditions by the companies Salus Haus Nachf. GmbH & Co KG in Bruckmühl and Walther Schoenenberger Pflanzensaftwerk GmbH in Magstadt. Our partners are leaders in their fields.

Certifications

We place the highest value on the quality of the products distributed by our company which are generally accepted by our customers. To put an even stronger emphasis on these demands we have reviewed our operation processes on expediency and functionality from a critical point of view and we established a management system in compliance with the requirements of DIN EN ISO 9001:2015 since 1999. A large number of our plant extracts, fruit powders and freshplant pressjuice powders have been kosher-certified for many years through OK Kosher Certification, N.Y. (US) and most of them can also be offered in organic quality according to Reg. (EU) 834/2007 by DE-ÖKO-003. Since 2014 we are also authorized to market Active Pharmaceutical Ingredients according to § 67 AMG (German Drug Law).

Contract Manufacturing

In addition to our standard qualities, we are able to offer a variety of different contract processing options in close cooperation with our production partners. Our many years of experience include the following processing options:

- ✓ Vacuum Belt-Drying
- ✓ Spray-Drying
- ✓ Extraction
- ✓ Milling
- ✓ Juice Processing
- ✓ Blending and Standardization
- ✓ Tailor-Made-production according to customers specification

We stand for reliability and the highest quality made in Germany. Feel free to contact us at any time - we look forward to new challenges!
